Claim Rejections - 35 USC § 112

1. Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 2-4, the recited arrangement of "Fast Fourier Transform" and "a buffer" is not clear. From the claimed language, it seems that both circuits receive "time domain values" in parallel. Nonetheless, such arrangement is not supported by the specification.

On lines 13-16, the process of "the complex amplitudes multiplied in each case multiplied by a respective complex value representing a respective complex derotation of the complex amplitudes corresponding to a respective time shift of the synchronizing frame" is unclear.
